KANSAS .- The elections are over. The Fremontshould the people of the South, therefore, conclude votes, and these votes must be on the soil of Kansas. Southern settlement of Kansas is the thing, and the only thing. We have no fears about the admission of Kansas as a Slave State, should her people so will to say. It can hardly operate advantageously. it. That we look upon as having been decided by the elections this year. The great thing now is to secure in Kansas a preponderance of people who shall so will it. There is the territory, as open for settlement as law can make it, as free to form a constitution establishing as prohibiting slavery. The party to whom the elections have entrusted the political power of the country, are committed to its admission either way, as the people may choose, when qualified to apply for admission. The contest of political parties, then, is closed for the present, and the struggle is now for peaceful preponderance in the territory .-Self-preservation dictates to the South the use of every fair and proper means to attain this preponderance, which she can only effect by the presence of ber citizens there. Will she do so? Will her citizens be there? These are really the questions. If she applies for admission as a slave State, all the abolitionists on earth can't stop her and keep the Union together. If, on the other hand, the South neglects her opportunity, and, when the time comes to form a State Constitution for Kansas, the majority of the voters should decide to form a Constitution excluding slavery, the South could have nothing to object against the admission of the State with such Constitution, provided it be fairly and legally adopted, and really expresses the will of the majority of the people of the territory or incipient State. Now is the time to work, and peaceful settlement is the mode .-Will the South come up to the work, or will she permit the opportunity to slip through her hands?

This is of course the Government account of thirty pounds of ice; each freezer has a depth of affairs. It seems, however, that the rebellion was twelve inches, and the length is the same as the for electors of President and Vice President in the depth, and the width is six inches. A flange or rim of half an inch extends around the four sides of the tives or bars running at the right angles. The flanges thus arrayed separate the freezers, forming a flue between each one inch width. A flue of equal thickness extends under the bottom. The steam engine connects with an air-pump, which is made to exhaust the atmosphere from these flues, and as soon as a perfect vacum is produced, a current of either is made to pass through these flues and continued till all the water in the freezers is converted to so id ice.

We cannot but think that our countrymen fall somewhat into an error respecting the real power of the Turk ish government. We all know that capital is both timid and independent; that it fears everything and respects nothing. If this gaudy frontispiece of imperial sway do not truly represent the financial power of the country-if the Sulfan and Ministers cannot really control the commercial concerns of the empire-we may find too late that guarantees and conessions are but a delusion, and that vast sums of money and a great opportunity have been irrevoca-Take, for instance, the plan of a bank to be found-

The Turks appear in the foreground; the celays, the equivocation, the promises, and the deceptions are all theirs; but the real resistance is the work of more subtle and resolute men.

We would, therefore, advise our country een not to trust too sanguinely to the assurances of political support. The Turkish functionaries are in commercial matters both ignorant and corrupt. When a scheme is detailed to one of them, he will in the majority of cases understand it very imperfectly .-Whether he is to have some of the money, he will probably require to be placed in a clear light, but the rest he will leave to other and cleater heads .-Now, the real advisers and confidents of the whole conclave of P. shas are these very Geeks and Armenians who have hitherto baffled the Ottoman Bank, and are now waging a not unsuccessful struggle against the chief capitalists of Europe. The Porte is, we believe, totally untrustworthy in its dealings with foreign enterprise. The Sultan is in debt, the harem is deeply in debt, and few of the chief men are out of the hands of the money-lenders. In this condition of things everything is sacred for a supply of ready While capitalists are bidding for conces sions, the Porte has demanded as his price, first, a loan of £5,000,000 and then of £8,000,000, rising in its exactions as the competition grows hot. At the same time, if we are correctly informed, the money for the last dividend on the old loan had to be borrowed at a cost of 10 per cent. Such a state of things should make our countrymen more cautious in their dealings in this new field of enterprise, and, if they will study a little more the anomalies which it presents as this letter prize the anomalies which it presents as this letter prize the anomalies which it presents as this letter prize the anomalies which it presents as this letter prize the anomalies which it presents as this letter prize the anomalies which it presents as this letter prize the property of the property o sents, we think the knowledge will not be acquired

Sir James Mackintosh invited Dr. Parr to take a drive in his gig. The horse become restive ... "Gent v Jemmy," says the doctor, " don't irritate him : always soothe your horse, Jemmy. You'll do better without me. Let me down Jemmy." Once on terra firma, the doctor's view of the case was changed .-Now, Jemmy, touch him up. Never let a horse get the better of you. Touch him up, conquer him, don't spare him; and now I'll leave you to manage him-I'll walk back.".

STRIKING SCENE AT A GAMBLING TABLE. - As a company of our fast young men were busy over the card table a few evenings since, a singular noise attracted their attention. It was of so unusual a nature that they immediately began to look about for its cause. It was repeated in another direction. Something more than curiosity was now excited, and playing was suspended. Immediately one of the company dropped into what the spiritualists call a trance, and proceeded to utter, as if from a deceased father, a homily against gambling and its associate vices -This was followed by an admonition purporting to come from a deceased sister of one of the company, couched in such terms, and uttered with such sisterly feeling, that the whole group was irresistibly moved

There was no more card playing that night .-None of those present were believers in spiritual manifestations, and the scene was wholly unexpected to all. Whether it was indeed spirutual, or is capable of some other solution, is a question. [Exchange paper.

A VISIT TO MRS. JAMES K. POLK .- Ope of the many pleasing incidents, (says The Nashville Union) of the recent Convention was the well conceived and appropriate visit, on Monday evening last, of the va rious military companies, escorted by the Union Guards, to the residence of the estimable relict of the la'e President, James K. Polk. The companies ap proached the grounds by the main entrance on Church street, and filed through the yard with marked precision and decorum, paying their respects and passing out in the same order in which they entered. Such manifestations of respect were no less appropriate on the part of the military than they were gratifying to

the distinguished lady. The Union adds : "Having been so much identified with public life. nd partaken so fully of the sentiments of her illustrious husband, for long years the pride and support f the Democratic party, it is but natural that she should continue to feel a lively interest in the success of the Democracy and the consequent ascendency of its principles. But while she is a cordial well wisher for the triumph of our party on this and all other occasions, she maintains inviolate that lady like reserve and abstinence from all overt political action, so becoming to one of her age and position in the esteem of the American people irrespective of party. We trust that she may be long spared by the decree of a kind Providence, a noble specimen of our country women, to adorn society with her accomplishments and virtue, and as a surviving link between her distinguished husband and the generation that is com-

Of all the various ills that detract from the enjoyment of human life most of them may be named to a disordered con-dition of the nervous system. The horrors of Epilepsy, or Falling Siekness, arise in most cases from this cause. Our readers may remember, on several occasions before, we have alluded to the wonderful cures, or modifications of Fits, made do not reflect that Turkey is financially in the hands of a class of men rich, thoroughly organized, perfectly a class of men rich. milder forms of Fits, such as severe Cramps, Spasms, &c — We now record the fact, that persons will find these Pills who are the creditors of the Sultan, of his wives, equally efficacious in curing every form of nervous debility of his ministers, of his servants—who stand on the no matter whether manifested in the seute and exeruciating form of Neuralgia, Tie-Doloreux, or Nervous Headache, the misery of Dyspepsia or Indigestion, the sufferings of Rheu fond the capital, which they had time enough to fortify. It is likely that these men would give up their gains to a London company, and come down from 10 to 12 per cent, to a moderate rate of interest? ARE YOU SICK! Then you can't be cured too soon. Don't d lay until your complaint is incurable, and then mourn when it is too late. Four-fifths of all the diseases which people the churchyards, night be cured by Ayer's Catharctic Pills, if taken in season. Don't go dragging through the Spring, faint, sleepy and listless, because your blood is loaded with bile. Don't wear the Headache, Heartburn, and their kindred disorder, because your stomach is foul. Don't parade yourself around the world covered with Pimples, Blotches, Ulcers, Sores and all or any of the unclear diseases of the skin because your system wants cleaning. Don't show yourself about, lean, haggard, all caved in, because your stomach and bowels need strengthening into healthy action. Ayer's Pills set these things right as surely as water quenches fire. They purify the body and blood, and restore their functions into nealthy activity which you can feel as quick as they are taken. Spirits Turpentine—Advanced one cent on Friday over previous quotation, but since then has declined, and the market rules quiet at 40 cents per gallon;—some other parcels changed hands on Friday evening, but we could not obtain the particulars—believed at 45 cents. The stock in first hands is quite small, and holders generally are asking higher figures. Sales since last review have been light, and are as follows:

Wednesday.....200 bbls. at 41 cents per gallon.

200 Tuesday. 40 No sales reported up to the time of closing our enquiries this Rosin-There has been considerable activity in the market for the Common a ticle during the past week, and the prices have improved 10 a 15 cents on for er quotations.—
The receipts for a week or two have been small, and there is little or none now in first hands, and only a light stock remains in second hands. The sales since our last reach some 10,000 bbls. at \$1 05 a \$1 10 for medium, and \$1 10 a \$1 15 for large size bbls.—closing at highest figures. Buyers are freely offering \$1 10 for large bbls., and holders demanding \$1 15. Small sales of No. 2 at \$1 37\frac{1}{2} per bbl. No. 1 arrives spa ingly, and is in fair demand. Small sales at extremes ranging from \$2 50 to \$4 25 per bbl., according to abolity.

TAR-Has been in rather better enquiry for shipping purposes, and has gone up 5 cents. Receipts light, and the sales reach only 386 bbls. at \$1 55 per bbl. BREF CATTLE, &c .- Seeves continue to be brought in sparingly, and the supply in butchers hands is light-not more than sufficient for immediate use. We quote small sales at 54 a 6 cents per Ib., as in quality. No Sheep arriving, and demand.

no demand.

COFFEE—Of nearly all descriptions is in fair stock, and we note merely a retail demand at present existing. Small sales from store during the week at prices quoted in our table, as in quality.

COTTON—Has ruled quiet during the week just ended, and prices remain about the same. There is a moderate quantity now in first hands, but buyers refuse to operate at the forces of which it is held. figures at which it is held. We quote at 114 to 12 cents for strict middling to middling fair. Sales for the week of only 580 bales at 11 cents for middling, 114 a 114 cents for strict middling, 114 a 114 cents for good middling, and 112 a 12 cents for middling fair.

Corn Meal—We note a fair stock on market, and no demand except for retailing purposes. We quote sales from store in lots as wanted at 80 cents per bushel.

EMPTY BARRELS—We have nothing new to notice in the narket for Spirits Turpentine barrels. The receipts have een fair for several weeks past, and the stock in first hands has somewhat accumulated; very little demand. Only small sales have taken place at \$1.60 a \$1.70 for second. hand, as in quantity and quality.

Fish—The market is pretty well supplied with Mullets, and rules exceedingly dull. About 150 bbls have been received, and for the want of a purchaser have gone into store. In the absence of sales, we quote nominally at \$5 for pine, and \$5 50 for oak bbls. See table for store rates of Macke-

FLOUR—In this article there has been very little done during the week just ended. Several parcels have been received per rail road, and there is a better supply now in first hands than for several weeks past. The advices from other markets are unfavorable, and appearances at present indicate a decided downward tendency in prices here. In the absence of sales our quotations must be considered merely nominal; -we quote fine \$7 25, superfine \$1 50, extra \$7 75, and family \$8 per bhl.

and family \$8 per bhl.
Grain—The Corn market remains about the same as reported in our last. There is a full supply in dealers hands, who show no disposition to purchase at present quotations. One lot of 1,000 bushels was received on Monday from One lot of 1,000 bushels was received on Monday from Hyde county, and sold at 61 cents per bushel. The market is dull at above figure, and another cargo would hardly obtain it.—OATS—The small receipts for some time past has caused the stock in dealers hands to become somewhat reduced, and we note a better demand.—A lot of 175 bushels was received a few days since and taken by a dealer at 45 cents per bushel. We quote at 40 a 45 cents, as in quantity and quality.—Peas—Since our last review we note the receipt of several small parcels, a portion of which have been taken by dealers at 60; landing from Schr.

Previsions—In the market for N. C. cured Bacon we have nothing new to notice. The stock in first hands appears to be fully sufficient for the demand from the trade, and only occasional sales are made at prices ranging within our quoted rates. See table. One smail parcel of new has been received, and gone into store; sells at 14 cents for how round. The stock of Western make continues good, and the market rules exceedingly dull. Only a few small sales have been efected at quotations. See table. Sugar cured hams are in modfrate stock, and difficult of sale; held at 13 a 13½ cents per lb. as a quantity and quality.— Lard For both N. C. and Western make an active demand exists from retailers, and parcels could easily be sold at a high figure. No receipts or sales of either, and quotations are merely nominal. See table.— Pork—The market is fairly supplied with Northern Mess, and with a limited demand has ruled quiet throughout the week. Prices remain at \$21 a \$22 50 per bbl., as in quantity, at which small sales have been made. In fresh we have no change to make; only small parcels are brought in and sales from carts at 9 a 10 cents per lb.

POTATOES—Very few of good quality. In the one market; Portaress-Very few of good quality. Lysh on market; there is, however, but a limited demand, and prices remain

without material alteration. See table. For Sweet there is a good enquiry, and only small parcels have been brought to market. We quote from boats and carts at 62 a 75 cents per bushel, in quantities to suit.

SALT—The market remains inactive for all descriptions. We note the receipt coastwise on Thursday last of 1,000 sacks Liverpool ground, which changed hands at 924 cents per sack, 90 days—a decline on previous sale; stock full, and market dull. Alum also rules dull, and is in good stock. A cargo of 2,000 bushels arrived on Tuesday from Turk's Island, and is unsold. We quote from vessel at 35 cents, and store 40 a 50 cents per bushel, as in quantity. SHINGLES AND STAVES-The market for both articles rules dull, and we have no transactions to report. Quotations

nominal. See table.

Timeer—The receipts for the week just ended have been better than for some time past, and with a limited demand from millers the market is now very dull. We note sales of rafts at prices ranging within quoted rates—cash and time See table.

FREIGHTS—Owing to the number of vessels that have arrived within a week or two past, and the small quantity of produce coming in, the market is rather dull, and prices tend downward;—no material decline has, however, yet taken place, and we continue former rates. of the State of North Carolina: GENTLEMEN: You have been elected by the people the State to represent them in this General Assembly.— They have confided to you powers, the highest and most important known to our government and laws. Coming as you do fresh from the great body of your fellow-citizens and from every section of the State, it is supposed that you are acquainted with their wants and nee and that these will be provided for, so far as it can be done by wholesome and enlightened legislation. I doubt not that every effort will be made on your part not to disappoint these reasonable expectations. For my own, allow me to assure you that my aid, however feeble, shall at all times be given towards facilitating your labors.

Before touching upon matters concerning more especially our own State and polity, allow me to congratul ate you upon the happy termination of the exciting political contest through which the country has lately passed. For the first time in our history we have seen an attempt seriously made by one section, or more properly speaking, by a political party of that section, to get the control of the different departments of the general government, with the determination expressed to administer that government on strictly sectional party grounds. It was virtually an attempt to degrade one section and to endanger its institutions, and to deny to it these equal rights and privileges to which all the States in the Union are entitled, and which hitherto they have enjoyed.

True it is, that all this was sought to be done according to the forms of the constitution. But the attempt was not the less atrocious for that reason.

The general government was intended by its framers to operate for the protection and safety of all, and if properly administered, will only be felt in the most beneficent manner. But whenever it is seized upon, even under the forms of the constitution, by one section of the country and so wrested, and perverted from its leg itimate purposes as to become an instrument of oppression or degradation to the other, he knows very little of the Southern people who believes that they would subto such an Union, however dear one of a different kind and indebtedness to, some of the banks of the State may be, and, I trust and believe, is to all. Whatever may have been said to the contrary, we of the South have not sought to control the affairs of the country or its government, so as to advance our own peculiar views and interests at the expense of any other section.

All we have asked for is to be protected in the rights enjoyment, and to be treated as equals among the States N. C. Railroad, do., and in the common Territories of the Union. More than this we have not sought to obtain. Less, if true to ourselves, we will never submit to take. United, as we have been, mainly, in the late contest

we have nothing to fear. For a time madness and fanaticism ruled the day, and the wisest, the best and most patriotic in the land were filled with fear and misgiving. But the result shows that we have as friends a large and influential body of patriotic, conservative, national men at the North, who, in a crisis like the one we have passed, are ready, at every hazard, to stand by the Union and the rights of every section. The task set before them, I regret to say, was one not easy of accomplish-But well and successfully have they performed it, and entitled themselves to the thanks and plaudits of all and the eternal gratitude of the South. For the present the contest is ended, perhaps to be renewed in a short time. Let us hope otherwise, and that peace, order and good feeling may return and abide with us.

One of the foremost statesmen of the land, a man eminent for his talents, of great knowledge and experience in public affairs—just in his purposes, national in his views, moderate in all things, and whose private life has been as pure and irreproachable as his public one has been honorable and useful—has been elected President of these United States. Scarcely inferior in all the qualities of a statesman, though of fewer years and less experience in public affairs, is he who has been elected to the second office within our gift.

With the legislative department of the government in accord, surely we have ample reason to hope for a suc- and the last General Assembly extended the time for cessful administration of our national affairs, a restor- payment of principal and interest on the first bond to 3d ation of peace and harmony, and a strengthening of the January next, and should the same be then paid, the ties which bind together the States in one National Union. time for the payment of the principal and interest on

The books of the Treasury further show an indebted ness by the State to the Literary Fund, on account, on the 1st November, 1856, of \$140,412 86. It is proper to state that this amount should be increased by about the sum of \$30,632 32, for interest on bonds of the State held by the Literary Board, as above set forth. and also upon coupon bonds of the State, purchased and now held as part of the Literary Fund. Further reference will be made to the matter before concluding this communication.

But the whole amount is put down, as the company has given the certificate of the requisite subscription of tock in the same, and executed the mortgage required by the charter to entitle it to the endorsement of its onds, to the amount stated, when called for

The interest has for many years, been paid promptly by the first named company; and its present prosperous condition removes all doubt as to its ability to pay for the future. The leterest has also been paid on the bonds of the Cape Fear and Deep River Company .-The bonds of the latter company have been issued within the past six months.

From information unofficially received, it is highly probable that the Wilmington. Charlotte and Ruther ford Railroad Company will so far comply with the terms of its c'arter, granted at the last session of the General Assembly as to enable it to call upon the State for endorsements of its bonds. As to the probable amount of such endorsements, or the times when they may be called for, I am not able now to give any definite information. It is proper, however, to refer you to the charter of the company, and to say that, more definite information will be laid before you during your session, should it come to my possession.

I may also refer you to the charter of the Western N. C Railroad Co., by which the State is pledged to subscribe two-thirds of the stock for the sections hereafter to be built, should private stockholders subscribe onethird.

In this detail of the present and prospective indebtedness of the State, I have omitted temporary loans by, authorized by re-olutions of the last General Assembly. These liabilities are fluctuating, and will more properly

appear in the report of the public treasurer. To meet these liabilities, besides the means to be derived from taxation and other ordinary sources of reve-

Properly speakng, it should have been, was omitted by a mere oversight, and will be found as a credit in the present fiscal year. Including these sums the amount of revenue for the last fiscal year may be set down at \$405,113 31. I regret to say that this amount will be less in the

No dividend was made at a late meeting of the stockholders of the former company, owing to the fact that the earnings of the company were chiefly expended in heavy and extensive repairs to that portion of the Road extending from Gaston Weldon, which, though lately built, was so defectively constructed as to render these repairs indispensa-

It is confidently expected that the North-Charolina Railroad will ultimately pay good dividends. It is hoped that it may pay some dividend at an early day, and thus measurably relieve the public treasury. But I am not sufficiently informed upon the subject at this time, to form a reliable opinion as to how soon such may be the case. You will, however, probably have such information laid before you during the session, as will enable you to determine whether any aid may be reasonably expected from that source in making provisions to meet the liabilities, present and prospective, of the

Looking to the pres-ent only, policy would seem to require it. if for no other reason than that of maintaining our credit unimpaired and thus enabling us to use it readily and upon the best terms, for extending our public works, or for other purposes. the other funds of the State. It has been already stated that it appears from the books of the Public Treasurer that there was due, on account, to the Litterary Fund the sum of \$140,412 86 on the 1st November, 1856, and that the State was furth er indebted to that Fund for interest on sundry bonds, in the sum of \$30,632 32, or thereabouts; making the whole amount due \$171.045 18. A considerable portion of the balance appearing on

the books is principal money, and ought to be invested -how much does not appear from the account, but may be ascertained. This balance has been accumulating for some years. A large portion of the interest men tioned above, as not carried into the account, is due up on two bonds of the State, constituting the item of \$40. 360 55, in the statement given of the bonded debt of the State. These bonds were executed by the Public Treasurer in the years 1848 and 1849, by virtue of a resolution of the General Assembly, in lieu of other funds belonging to the Literary Fund, which were transferred to the State Treasury. No interest has been paid upon these bonds. Calculated to the last semi-annual pay day on same, the interest amounts to the sum of 22 955 80. Under the circumstancee presented, and in the present state of the public treasury, I respectfully recommend that this amount be converted into principal, and that the public treasurer be required to execure the bond of the State for the same to the President and Directors of the Literary Fund, bearing six per cent. interest. payable semi-annually. By the existing law on the subject the coupon bonds o

the State are payable to bearer, and no endorsement by an owner or holder is required for their transfer. The holder for the time being collects the coupons for interest, and may collect the principal money when due. As a general rule this provision is best, for bends thus transferable are more saleable in the Northern market. But it has been suggested to me by some of our own citizens, who have made permanvestments in these conds, purchased either of the Public Treasurer, or others, that where a holder or purchaser of a bond desires it, the Tressurer of the State should be required to note the number, date and amount of the bond ,000,000 in a book to be kept for that purpose, and to whom it belongs, 533,000 and also to endorse upon the bond that it is transferable only at his office by writing on the bend, witnessed by him.
It is generally the case that holders of these bonds, among citizens have no safe place to keep them. They are liable to be lost, stolen, or destroyed by accident. equence is that those who hold them feel insecure, and those who do not, fear to invest in them. It seems to me such a provision should be made, and every inducement held out to It gives me pleasure to inform you that by means of the liberal aid extended by the last General Assembly our main lines of Railroad improvement, are being extended east and west as rapidly as circumstances will allow. On the 12th of September, 1855, a subscription, on behalf of the State, of \$1,060,600, was made to the stock of the Atlantic and N. C. Railroad (ompany, of which the sum of \$533,000 has been paid by sale of State bonds.

was also made by the State to the stock of the Western N. C. Railroad Company, of which the sum of \$200,000 has lately been paid by sale of bonds The greater part of the line of this road has been surveyed, and the portion of it from Salisbury to a point near Statesville and thence to the west bank of the Catawba river has been located, and let out to contractors, and a considerable portion of it has been graded. Fuller information as to these works will no doubt e laid before you by the respective companies during you I have been promised a full report as to the operations on

I can only add that when more definite information as to this important work is received, it shall be promptly laid before you. ent session for further aid to works of internal improvements. I have heretofore expressed the opinion that the State should furnish liberal aid to works of the kind, extending them as rapidly as she can, consistently with her means of doing so.

It was upon this principle that the last General Assembly acted, and such I believe will be the future policy of the State. Whether further appropriations should be made at this session, and if so, to what extent, is more especially our province to determine, and issubmitted to your wisdom nd better judgment.

During the present year, the State Geologist, Dr. Emmons, nade known to me his readiness to prepare a report of his arrey of the State, so far as completed, and the matter aving been brought to the attention of the Literary Board, nder whose supervision the law required the report to be ublished, Dr. Emmons was requested to prepare it for pubcation; and the Board determined to have 1,000 copies rinted and bound in boards, with suitable plates and exlanatory maps.

The work was int to press as prepared and furnished in heets—has all been printed, and is now in the hands of the inder, and will be ready in a short time to be laid before

It was deemed advisable to publish the report in the man-ner stated, as it will be no doubt found worthy of a place in our own public and private libraries, as well as in those abroad; and it was supposed that the number ordered to be published would furnish a sufficient supply for distribution, leaving copies enough to reimburse the State for the cost of publication, should the Legislature order them to be sold. A statement of the costs of publication will be sent in with the report. There was unexpended and in the Treasury, of

the report. There was unexpended and in the Treasury, of the amount appropriated for making the survey, a sum more than sufficient to defray all the expenses of publication.

For reasons already stated, I have not been able to read the report; int I have reason to believe that it will be found of much interest, not only to the man of science, but to the general reader. The mineral resources of the State especially, will be fully made known; and it will be seen that, in this respect, our State is second to only one in the Union. In some other respects the report is incomplete, and more time and further examinations are necessary.

It is due to Dr. Emmons to state that, for the past two years or more, he has had but one assistant, instead of two, as originally contemplated, and that during the present year a considerable portion of his time has been necessarily devoted to the preparation of his report. In compliance with the resolution of the last General Assembly, he has also collected and arranged a

Should a new charter not be granted to the present Bank, I respectfully recomme d to you to charter a new institution with about two millions of capital, based upon the same general principles, with such guarda and restrictions as experience may have shown to be necessary—placing neither severe and unusual restrictions upon the Bank, nor, on the other hand, extending to it privileges and immunities over and above individuals, unless necessary and proper for the successful conduct of its business.

The one herewith sent will be found to contain much valuable information on the subject of education in the State, and especially as to the condition and prospects of our Commod Schools, and many valuable suggestions are made for the improvement of the system. The statements made from pages 33 to 37 of the report, inclusive, and the tables at the end of the report are especially interesting. Copies of this report will be laid upon your desks. By the census of 1850 it appears that the number of white

persons in the State between the ages of 5 and 2I years, was 215,453 Mr. Wiley reports the whole number of children at the Common Schools in 73 counties in the State from returns to him) for the year 1855 to have been 112,632. Estimating for the few remaining counties he gives the whole number of children at these schools, in the State, at about 130,000; and at other schools and colleges in the State, about 10,000; making the whole number at school in the State about 140,000. Unless he is mistaken in these statements, and I do not believe that he is, the day is not distant-not more, at farthest, than one generation—when we shall no longer be reproached for the ignorance of our people, but all, will be able, at least, to read and write. An opinion has prevailed to some extent in the State, that the

An opinion has prevailed to some extent in the State, that the Common Schools have hitherto been of little benefit, and that this small benefit has been more than counterbalanced by the injury resulting therefrom to other schools—that most of these have been destroyed—and that in their places we have the Common Schools but for a small portion of the year. This may be true to some extent and in some localities; but the evil, if it be one, I am satisfied, is much less than many have supposed. Inferior schools have in many, and, indeed, in most counties, been superseded by the Common Schools. But this report shows that private schools and academies have increased largely, and are still on the increase. still on the increase.

I am satisfied from my own observation, (and in the two years last past I have had ample opportunity to observe in traverging every section of the State) that the number of schools, male and female, especially the latter, of a high grade, is rapidly increasing in every part of the State; and I have observed it with pleasure as one of the best and surest

State Solicitors are also to be elected for the 1st, 6th and 7th Ju I herewith transmit to you a letter and enclosures there-

in, addressed to me by the Hon. John H. Wheeler, Minister to the Republic of Nicaragua, in relation to the forcible seizure, on or about the 18th July, 1855, of certain slaves of his by persons in Philadelphia, while he was passing through it, on his way to New York City, from which place it was his purces to ambank for Nicaragua. nis purpose to embark for Nicaragua. These slaves were the domestic servants of Mr. Wheeler

and family, and it was his intention to take them abroad with him as such. The seizure and removal, violently and against the will of the owner, and under the circumstances tated, was a high-handed outrage, and is believed not to have been warranted, even in a civil point of view. by the laws of Pennsylvania. I have received a subsequent letter from Mr Wheeler in which he states that he has caused an action for damages to be instituted against one of the par-ties to the act complained of, and he expresses the hope that this State will aid in the prosecution of it, as has been done by other States under similar circumstances. It is important that the question should be determined by the highest judicial authority in the country.

I recommend the matter to your favorable consideration. By virtue of a resolution passed at the last session, the Hon. David L. Swain was appointed by me as agent to pro-cure documentary evidence of the history of the State. The matter is mentioned now merely to say that a more particu lar and definite communication on the subject will be subnitted in the course of the session.

The Governor was also authorized to procure a copy of

Tryon's North Carolina papers" from Harvard Col Gov. Swain was kind enough to undertake this duty also, and procured a copy of Tryon's Letter Book, while Governor of the Province of North Carolina, which is now in his posession, and of which more definite information will be given n the above promised communication. In compliance with a resolution also passed at the last ses

sion, I have addressed a circular letter to the Governors of most of the Atlantic States, asking for the information de sired as to State Marine Hospitals where any such exist.

Answers have been received from the Governors of several States, in which there are no such establishments owned by the States, and it is doubted whether such an institution will be tound in any of the States. An appropriation was made at the last session of \$5,500

for the purpose of adding a wing to the Governor's House, and repairing the house and premises generally—the mone to be expended under the board of Superintendents of Pub lic Buildings. The house has been greatly improved in comfort and appearance by the addition and whole premises are now in good order. There is yet an unsettled balance due the contractor for work on the main building, but it would be found that the whole work has been executed for about \$1000 less than the sum appropriated.

Three sets of resolves from the State of New Hampshire, one from the State of Ohio, and one from the State of Ma

States, with a request that they be laid before you. It will be seen that all relate to Kansas and slavery, and kindred subjects, except one set of the resolves from New Hampshire relating to the importation of foreign paupers and criminals, and to the naturalization of foreigners. The resolves in relation to slavery, &c., indicate such a state of the public mind in the States from whence they emanate, as to render it worse than useless, in my opinion, to undertake any reply to them.

sachusetts, were forwarded to me by the Governors of those

fully recommend that no further notice be taken of any of these resolves. The already great length of this communication reminds me of the property of bringing it to a close. I will do so with the single remark that I hope all your deliberations may be characterized by harmony and courtesy, and that your labors

may result in promoting the welfare and prosperity of the State.
